Nota Bene:

- Schools will be charged based on the number of **registrants** regardless of "no show" status.
 - If a registered student is unable to attend, teachers may bring substitutes. Submit a new name upon check-in. Please be sure to inform substitute participants of contest format and requirements.
- 7) **Who pays for the contest?** Based on your department, choose if you prefer the student or school. Some schools have drawn funds from "club" accounts. For example, pay out of the club account, but if the student was a "no show" they could reimburse the club.
 - 8) **If a student does not compete, will the registration be reimbursed?** No, the certificates, medals, and location fees are all based on the registration total.
 - 9) **Do I have to serve as a judge?** If you send up to 8 students, you must serve as a judge. We do welcome all judges. It will help move the contest along more quickly. It can show you what other students know (compared to your own). It gives you a chance to interact with another young person in a positive way.

- 10) **Are teacher judges paid?** Due to rising costs, there will NOT be an honorarium this year. This is to offset a possible rise in fees for registration for a second year.
- 11) **How long will the judge window be?** It is estimated that each judge will work around 2-3 hours. This depends on participation of students AND of number of judges. Please encourage your team to participate.
- 12) **How will students be judged?** Scorecards will be a Google form that judges can fill out in real time.
- 13) **When is the deadline for registration?** 7 days before each contest. Please make payments ASAP.

- 17) **Why are the contests scheduled (where and when) this year?** FLAG tries to schedule events so that they are not on back-to-back weekends. Host schools also have a hand in scheduling. The schedules of the administrators are also considered.
- 18) **Can other schools host the spoken language contest?** Yes, please send a message to psanchez.flag@gmail.com to discuss criteria.
- 19) **What is the difference between Heritage and Native speakers? How will they be judged?** *Native speakers* are students who have 3 or more years of formal, secondary study in their language while living in their country of origin or who speak the language primarily in their home.*
Heritage speakers are students whose principal experiences with Spanish are here in the USA. They have lived here most of their life, but Spanish is spoken in their home.

- 20) **As a judge, what do I ask? How do I assess?** Be fair based on what the kids can do. Think about the rubric versus the student, not the students versus each other. There will be picture prompts available.

Judges: If applicable, reach out to the teacher of the student group you will judge to ask about their current or recent content, topics, procedures for you to ask the right questions. This will give your contestants a more positive and successful experience.
- 21) **How long should each time slot be for each student?** Until the conversation ends...around 5-10 minutes.
- 22) **Do we need to record the students' performance while they are talking and submit the recording to you later?** No, but you are welcome to take notes. All scoring is submitted via google form.
